EXECUTIVE SUMMARY

The following summary of the 2026-2028 budget proposal for the Texas Real Estate Commission is respectfully submitted for review and input. Thorough analysis has been performed in order to reasonably project revenue and expenditures of the agency.

This budget proposal is presented as a three-year budget. It is important to note that due to fluctuating circumstances from year to year such as anticipated number of licensees, the second and third year of the budget is intended to be informative and indicative of planned activity levels and will be refined as necessary during subsequent budget cycles.

The first year of the budget, labeled "proposed 2026" is the only year intended to be adopted, while "projected 2027 and 2028" are to be considered as a forecast using a constant active license holder count.

The first draft of the 2026 budget proposal is presented to the Budget Committee of the Texas Real Estate Commission (TREC) for consideration.

HIGHLIGHTS

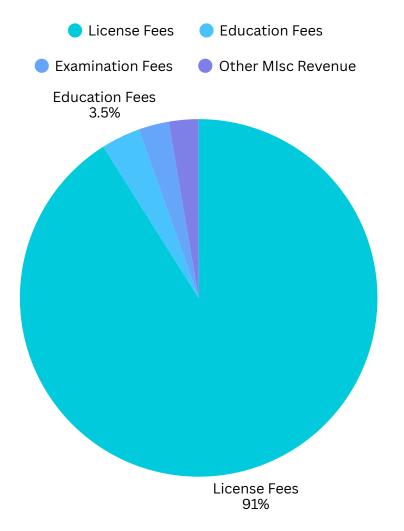

The Texas Real Estate Commission operates on a lean budget, expenditures were analyzed to ensure the agency was operating as efficiently as possible. Meaningful efficiencies that were identified have been incorporated into the FY26 Budget. The highlights are as follows:

- The agency did not backfill 9.6FTEs that were vacant during FY2025, and the budget for those salaries have been removed from the FY2026 line item for salaries and wages. Cost savings of \$488,420.
- A 3% merit is included in the salary and wages line item to allow for each employee to receive a
 merit up to 3% of their base salary. Merits are based on directors discretion and employee
 performance.
- Professional Fees & Services increased to account for a tentative web development project which
 is estimated at \$400,000. If we are able to proceed, this would be a one-time expense and we will
 see a decrease in this category in FY2027 and 2028. There is also an increase for MS Azure to
 support our increased cloud storage.
- Travel costs increased slightly due to the need of increased staff travel to facilitate the Legal Update and Broker Responsibility training that we will begin hosting in FY2026.
- Equipment rental decreased as our final laptop lease expires 12/31/2025, we have shifted to purchasing equipment instead.
- Other Operating Expenses category recognized an overall decrease as we identified efficiencies and reduced/eliminated costs such as: decreased the number of attendees at conferences, decreased professional memberships, eliminated subscriptions, decreased the number of licenses for software, etc. There are some new expenditures that we hadn't previously paid for, but are deemed necessary such as: cybersecurity policy insurance, 1Password-online password management tool, Testrail and Scribe Pro.
- Capital Expenditures include the remaining Regulatory Application Modernization Project (RAMP)
 implementation costs and server room upgrades.
